

MECHANICAL FITTER

Mechanical Fitter (Day, Afternoon and Night shift)

Do you dream of living and working overseas and enjoy a great work-life balance?

Opportunities exist for trade-qualified and experienced Mechanical Fitter, with a minimum of five years' experience, to set, operate and oversee precision assembly/fitting of engineered componentry into finished products.

You will possess the skills required to produce high quality waterjet assemblies and related sub-assemblies including hydraulic systems; on either afternoon or night shifts.

The positions require the following skills and standards:

- Ability to read and interpret mechanical drawings.
- Sound knowledge and experience in hydraulic systems.
- Capability to work under own initiative and within a team.

Don't miss this opportunity to work for one of the world's most iconic manufacturers. With products sold all over the world, they are world leaders in the marine industry, they are looking for experienced Mechanical Fitters to join their busy factory.

To be considered for these positions you must be able to demonstrate your experience, relevant training and qualifications. All applicants must be available to work shifts and/or occasional overtime as required.

The positions require the following additional skills and standards:

- Post secondary qualifications (partial or full);
- Strong written and verbal communication skills in English;
- A collaborative and inclusive team approach;
- Experience in the supervision of more junior staff is a plus
- Proactivity, strong time management and organization skills;
- Besides technical applications, proficiency with Microsoft and Google suite preferred;
